Unisto Modular Evolution

High security tamper-evident adjustable length security seal with a robust construction that prevents accidental breakage (ribbon diameter 4 mm). This seal is very popular in industries such as Post/Courier Services and Transport. Optional bar-coding for efficient data capture. Available in a range of colours. The key feature is the flexible tag, which is available in different lengths. This enables a high range of individualisation. Depending on the application available with several spikes. Optional tear-off facility to allow easy removal of seal. The pre-cut flag (from 50 mm) offers many logistical possibilities.
